

Lengthsman's Report

9TH NOVEMBER 2016

Since my last report in September, I have continued to work around the Parish.

This has included defining the road edge around St Mary's Church and clearing leaves and grids where necessary. I have also been tidying up along the kerbside in Bells Orchard and West View.

I have recently been around the Parish making sure all road signs are visible to oncoming traffic, and removing any overgrown vegetation.

Footpaths

Over the next few weeks I intend to check that all the footpaths have good access from the roadside, removing any overgrowth and ensuring styles are in a good state of repair.

I have asked Lara Edwards at Balfour Beatty to clarify who is responsible for maintaining the styles upon private land, but have not yet received a reply.

A member of the public has contacted me regarding two footpaths leading off the Kymmyn, I have never walked this path so not exactly sure of the geography but apparently one is through a field of beet that is proving difficult to walk and the other is over a field that has been ploughed. It was also stated that vehicles have been driving over the common at Hopleys Green. I have told them to contact the Parish Council.

Should any member of the public come across issues that may be within my remit please make the Parish Council aware of them.

Regards

Andy Cross
